

iOS 15 Email Configuration

Step 1: Click on Settings on the home screen.

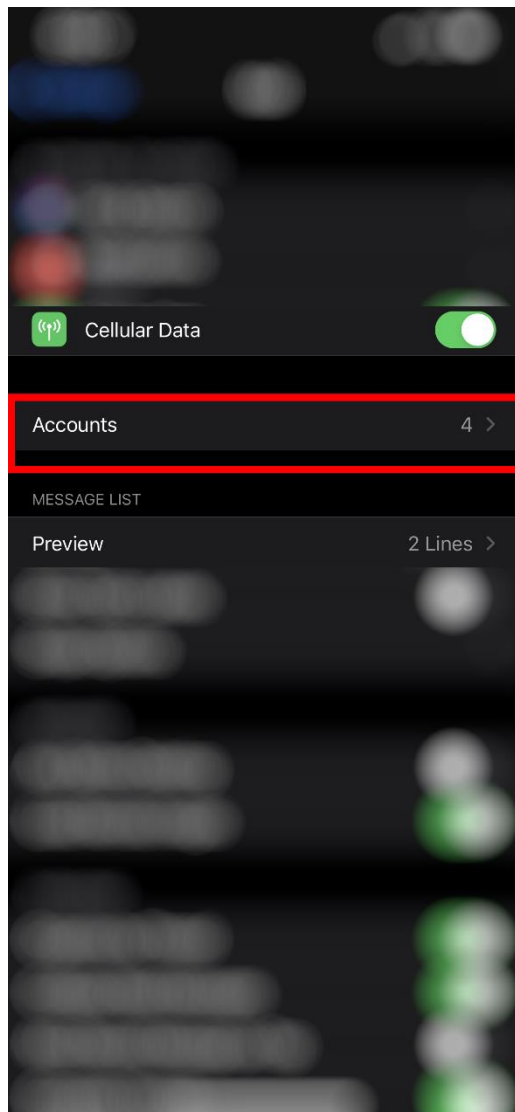

Step 2: Click on Mail

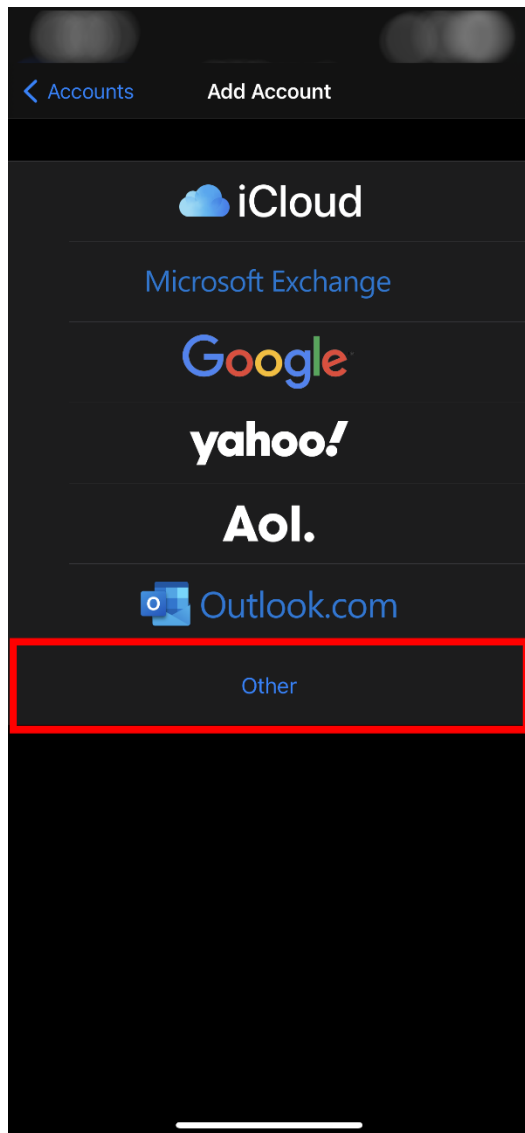

Step 3: Click on Accounts

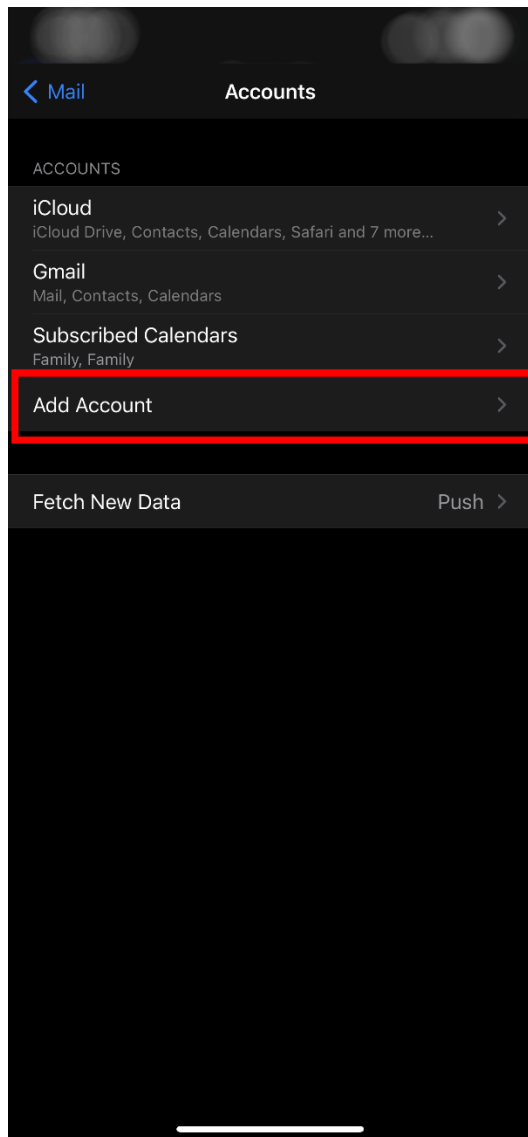

Step 4: Select "Other"

Step 5: Click "Add Account"

Step 6: Enter Account Information

Cancel	New Account	Next
Name	Test	
Email	test@isoc.net	
Password		
Description	Isoc	

Enter the following settings:

Name: The name displayed when you send email

Email: Your full email address

Password: Your email account password

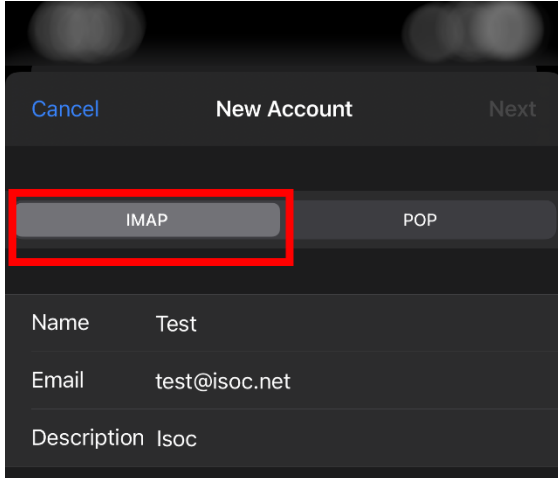

Description: Account description of your choice

Tap **Next**.

Step 7: Select Account Type

Select your account type on this page. We recommend IMAP for mobile devices as messages are stored on the server which provides better syncing with multiple devices.

Step 8: Enter Incoming Mail Server Information

Cancel New Account Next

IMAP POP
